

New Yamaha Storage Bags

GENUINE YAMAHA PARTS & ACCESSORIES

These durable SportsLine Generator Storage Bags from Yamaha are slim, stylish and practical. Their light-weight breathable material provides excellent storage protection from dust and other elements whilst not in use. Our Yamaha Storage Bags come in a variety of sizes with useful Velcro compartments to fit generators with handles and other styling options for your added convenience.

This means you don't need to take off the Yamaha Storage Bag to use the handles when moving your generator. The elastic bordered bottom edge of the Yamaha Bag seals around your generator without touching the ground to prevent it from getting dirty or slipping off your generator – which means a more snug fit and added protection when in storage.

SUITS MODELS:

EF1000iS, EF2000iS, EF2400iS, EF2800i,
EF3000iSE, EF5200FW and EF6600E

Each SportsLine Generator Bag is individually packaged, labelled and barcoded.
